	All 3 Plans under the Scheme can invest in third party mutual fund Scheme and / or Scheme of Aditya Birla Sun Life Mutual Fund.
Investment Strategy	The Scheme aims to generate returns by investing in portfolio of equity schemes, ETFs and debi schemes as per the risk-return profile of investors. Each of the 3 plans under the Scheme has a strategic asset allocation which is based on satisfying the needs to a specific risk-return profile or investors.
	There can be no assurance that the investment objective of the Scheme will be realized.
Risk Profile of the Scheme	Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:
	 The Scheme returns can be impacted by issues pertaining to the NAV's of underlying Scheme or mutual funds where the Scheme has invested. These could be issues such as uncharacteristic performance, changes in the business ownership and / or investment process, key staf departures etc.
	• Each plan has an allocation range within each asset class. The fund manager of the scheme has the discretion of active allocation to the asset class within the permitted range. This flexibility at times could impact the performance of each plan if the decision to allocate higher or lower percentage to an asset class does not go right. E.g. if the range for equities is 50-60%. In a rising market, 50% allocation and in falling market, 60% allocation to equities would result in lower returns.
Risk Control	Investment in funds selected as per ABSLAMC process;
	Regular monitoring of the investments internally to reduce risk;
	 Diversification achieved through investment in more than one fund at any point of time;
	 Tracking and monitoring deviation from the benchmark;
	Tracking Investor concentrations;
	 Regularly tracking the liquidity of the portfolio of the underlying funds;
	 Regularly checking and tracking credit quality of the portfolio of the underlying funds;
	 Favoring funds with strong parent backing.
Plans/Options	The Scheme will have Regular Plan and Direct Plan ^{**} with a common portfolio and separate NAVs Investors should indicate the Plan for which the subscription is made by indicating the choice in the application form. Each of the above (Regular and Direct) Plan under the scheme will have the following Options: (1) Income Distribution cum capital withdrawal ("IDCW") Option (Payout of IDCW and
	Reinvestment of IDCW)^
	(2) Growth Option
	^the amounts can be distributed out of investors capital (Equalization Reserve), which is part of sale price that represents realized gains.
	**DIRECT PLAN:
	 Direct Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor.
	ii. Eligible investors: All categories of investors (whether existing or new Unitholders) as permitted under the Scheme Information Document of the Scheme are eligible to subscribe under Direct Plan.
	iii.
