It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the unit holders. Such changes in the investment pattern will be for short term and defensive considerations as per para 1.14.1.2 of SEBI Master Circular on Mutual Funds dated May 19, 2023. However, due to market conditions, the AMC may invest beyond the range set out above. Such deviations shall normally be for a short-term purpose only not exceeding 7 calendar days, for defensive considerations and the intention being at all times to protect the interests of the Unit Holders.</p> <p>Any transactions undertaken in the scheme portfolio in order to meet the redemption and subscription obligations will be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.</p> <p>Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI (MF) Regulations.</p>
Investment Strategy	<p>The Scheme aims to track the CRISIL Liquid Overnight Index before expenses. The index will be tracked on a regular basis and changes to the constituents or their weights, if any, will be replicated in the underlying portfolio with the purpose of minimizing tracking errors.</p> <p>In lieu of the same, the scheme will invest in TREPS as CRISIL Liquid Overnight Index constitutes TREPS.</p>
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Memorandum (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:</p> <p>Investments in the Scheme are subject to various risk factors including but not limited to risks associated with: liquidity risk, regulatory risk, lack of active market, tracking error, redemption risk, investments in Fixed Income Securities such as Price-Risk or Interest-Rate Risk, Credit Risk, Liquidity or Marketability Risk, Reinvestment Risk etc., risk associated with listing of units and risk associated with Creation Of Segregated Portfolio. Different types of securities in which the Scheme would invest as given in the Scheme Information Document/Key Information Memorandum carry different levels and types of risk. The above are some of the common risks associated with investments in various securities. There can be no assurance that a Scheme's investment objective will be achieved, or that there will be no loss of capital. Investment results may vary substantially on a monthly, quarterly or annual basis. Further, the Fund/AMC is not guaranteeing or assuring any returns. Investors may, if they wish, consult their legal, tax, investment and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, i.e., before making a decision to invest/redeem Units.</p> <p>Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for detailed scheme specific risk factors.</p>
Risk Control Strategies	<p>Market Risk/ Interest Rate Risk: The Scheme may invest only in money market instruments thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.</p> <p>Liquidity or Marketability Risk: The Scheme may invest only in money market instruments. The liquidity risk for money market instruments is generally low.</p> <p>Tracking Error Risk: The Risk Mitigation strategy revolves around reducing the tracking error to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of securities in the Underlying Index as well as the incremental inflows into / redemptions from the Scheme.</p> <p>The Scheme being a passive investment carries lesser risk as compared to active fund management. The portfolio would follow the index and therefore the level of constituent concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking errors. Thus, there would be no additional element of volatility or concentration on account of fund manager decisions.</p> <p>While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.</p>

Plans/Options	<p>The Scheme shall have only one Plan and only one option which shall be daily Income Distribution cum Capital Withdrawal (IDCW) reinvestment with compulsory weekly payout of the reinvested units.</p> <p>The Scheme will declare IDCW at a daily frequency, subject to availability of distributable surplus. IDCW declared on daily basis will be compulsorily reinvested in the Scheme. Units arising out of IDCW reinvestment will be extinguished and paid out to the investors on a weekly basis i.e., payout on every Monday of the week. In case the payout date falls on a non-business day the payout will be done on the immediately following business day.</p> <p>However, the Trustees reserve the right to introduce/ alter/ extinguish any of the plans/ options under the Scheme at a later date. For any change in plans/ options offered under the Scheme, the AMC shall publish a notice-cum-addendum for the information of the investors.</p>

<p>Disclosure of Potential Risk Class (PRC) Matrix</p>	<p>Pursuant to the provisions of para 17.5 of SEBI Master Circular on Mutual Funds dated May 19, 2023, all debt schemes are required to be classified in terms of a Potential Risk Class matrix consisting of parameters based on maximum interest rate risk (measured by Macaulay Duration (MD) of the scheme) and maximum credit risk (measured by Credit Risk Value (CRV) of the scheme). Mutual Funds are required to disclose the PRC matrix (i.e. maximum risk that a fund manager can take in a Scheme) along with the mark for the cell in which the Scheme resides on the front page of initial offering application form, SID, KIM, common application form and scheme advertisements in the manner as prescribed in the said circular. The scheme would have the flexibility to take interest rate risk and credit risk below the maximum risk as stated in the PRC matrix. Subsequently, once a PRC cell selection is done by the Scheme, any change in the positioning of the Scheme into a cell resulting in a risk (in terms of credit risk or duration risk) which is higher than the maximum risk specified for the chosen PRC cell, shall be considered as a fundamental attribute change of the Scheme in terms of Regulation 18(15A) of SEBI (Mutual Fund) Regulations, 1996.</p>								

	<p>The Mutual Funds shall be required to inform the unitholders about the PRC classification and subsequent changes, if any, through SMS and by providing a link on their website referring to the said change.</p> <p>The Mutual Fund/ AMC shall also publish the PRC Matrix in the scheme wise Annual Reports and Abridged summary.</p>
